

PRESS RELEASE

Paris, 17 January 2025

MOBILIZE AND NW PARTNER TO CREATE INNOVATIVE SOLUTIONS FOR RENAULT GROUP ELECTRIC VEHICLE USERS

- **Mobilize, the Renault Group brand dedicated to new mobility, and NW, the French leader in electricity storage and the first French unicorn in energy transition, announce the signing of an agreement to create a joint-venture in the field of electric vehicle charging combined with energy storage.**
- **This alliance aims to create innovative solutions to make the use of electric vehicles accessible to everyone.**

The future joint venture aims to reduce charging costs for electric vehicle users while maximizing the use of decarbonized electricity. Through this partnership, Mobilize and NW are committed to implementing innovative solutions to facilitate more sustainable and accessible mobility for all.

The joint-venture will leverage on the complementary strengths of Mobilize and NW. Mobilize brings its in-depth knowledge of electric vehicles and charging infrastructure. Its ambition is to facilitate the transition to electric vehicles by offering charging solutions tailored to the needs of individuals and businesses, whether at home, at work, or on the go.

On the other hand, NW provides its expertise in electricity storage and charging infrastructure, with a global capacity of nearly 1 GWh and recognized expertise in managing the needs of the electricity market.

"At Mobilize, we are committed to playing a key role in the energy transition. This alliance with NW allows us to combine our expertise to offer charging and energy storage solutions that are both innovative and sustainable. Together, we aim to transform the European energy landscape and address the energy challenges of tomorrow," says **Gianluca De Ficchy, CEO of Mobilize.**

"For NW, the concept of Industry 4.0, also known as the fourth industrial revolution, represents a new way of organizing production resources. This industry of the future enables the convergence of digital technology and digitalization with products and/or physical world infrastructures. We have the potential to create a unique and innovative offering that will accelerate the use of the 'watture',"* explains **Jean-Christophe Kerdelhué, founder and President of NW.**

*According to Petit Robert 2024, "watture" is a feminine noun referring to a wheel-based vehicle powered by electricity, intended for the terrestrial transport of a few people and their luggage. It is a play on the word 'voiture', which means 'car' in English.

About Mobilize :

Mobilize is the Renault Group brand dedicated to new mobility trends. Mobilize supports the transition to more sustainable mobility by offering its personal and professional customers products and solutions linked to energy, financing, connectivity and fleet management. Mobilize also develops electric micro-mobility vehicles. Mobilize embodies the vision of sustainable, innovative mobility, and paves the way for accelerating the energy transition by making it accessible and tangible. Mobilize is present in 40 countries and employs more than 4,500 people. Mobilize Financial Services is under the direct supervision of the European Central Bank under the name of RCI Banque S.A. For more information, visit mobilize.com follow Mobilize on [X](#), [Instagram](#) and [LinkedIn](#).

About NW :

The NW group is developing a range of solutions to make the energy transition accessible to all. NW is the French leader in electricity storage with the JBox®, and is also a major player in high-power electrical recharging with its IECharge® technology. As a player in the regional energy transition, NW contributes to the development of new energies, mainly in rural and peri-urban areas. Thanks to its innovative solutions patented in France and internationally, NW aims to increase the share of low-carbon energy in the electricity mix, support the stability of the electricity grid and contribute to the development of electric mobility in France and internationally. NW is France's first energy transition unicorn. The group is a member of the French Tech Next40 and has been awarded the "Solar Impulse" label. In October 2024, NW secured €430 million in non-recourse bank financing from two international banks to accelerate its development in Finland, Sweden, Italy, Texas (USA) and Japan.
